

# ZOMBIE DECODER WHEEL

Tom and Pradeep aren't the only ones who can make use of a secret language between friends! Use the decoder wheel below to exchange top-secret messages with your friends. Cut out both circles, and place the smaller circle inside the larger circle. Attach at the center with a paper fastener to allow the wheels to spin. Then, just line up the circles (using the asterisked pieces) to solve the code!

For more practice, try decoding the following words and phrases!
